

Trieste Key Features

- ❖ Made with a single-piece bamboo mast for extra strength and durability
- ❖ Bamboo has a higher density than Teak
- ❖ The mast and frame is very smooth to touch
- ❖ Resistant to warping, splitting, rot, mould and mildew
- ❖ No splinters or leaching
- ❖ Double pulley and rope system ensures easy raising and lowering of the canopy and a jam cleat
- ❖ The moving hub is turned with stainless steel brackets
- ❖ An elegant bamboo finial finishes off the umbrella
- ❖ The membranes are attached using bolt-down stainless steel rib end protector system
- ❖ The ribs and supporting arms are fitted with stainless steel through bolts, making all the parts easily interchangeable
- ❖ Excellent "Green" credentials – Bamboo has a high CO₂ absorption and is sourced from sustainable forests, thus minimising the effect on the environment
- ❖ European solution dyed acrylic fabrics are used for the membranes, with a choice of around 30 colors
